Nr _____

CONDITIONS OF ELECTRONIC ACCESS

The undersigned *Client* requests an online-encrypted access with the following services:

- ☐ Online Account consultation
- ☐ Online access to mail & documents (e.g.: notices, account statement, valuations, etc.)

The Client accesses to the account either through a dedicated website (hereinafter the "*Site*") or through a mobile application (hereinafter the "*App*"). For the access to the App, the End User Licence Agreement (hereinafter "*EULA*") must be confirmed by the Client (www.cite-gestion.com/en/useful-links - EULA).

CONSULTATION OF THE ACCOUNT AND AVAILABILITY OF THE MAIL

Any document transmitted electronically shall be deemed to be an original document having the same legal effect as if sent by normal mail. Documents sent electronically shall be deemed to have been delivered to the Client once they are placed in the Client's online mailbox. Any documents sent shall generally be stored in the online mailbox for a period of two years. At the end of any such two-year period, any documents that have not been read by the Client may be reissued upon request within the legal time limit, subject to applicable charges

PERSONAL ACCESS AND SECURITY MEASURES

The Client shall receive personal identification means that ensures a secured access to electronic services, such as a personal identification number ("**PIN**") with an identification card or any other identification mean that Cité Gestion shall think appropriate according to the technology in use. The Client must then change the PIN immediately upon receipt. Once such codes have been changed, they will not be known to Cité Gestion. The Client undertakes to keep the PIN and any other identification means private and strictly confidential and to take appropriate steps to ensure that they are not disclosed to unauthorized persons. **Cité Gestion shall be entitled to consider any person who completes the authentication procedure by means of the said identification means and thus gains access to e-communication services, to be the Client.** Cité Gestion shall not be liable for any loss or damage that may be suffered due to the disclosure or the transmission of the said identification means to third parties or to the theft or misuse thereof by third parties. **The Client shall immediately inform Cité Gestion in the event of the loss, disclosure or theft of their codes, identification means or authentication device such as electronic ID card, etc.**

OUTSOURCING

Cité Gestion deploys the technology and services of third party service providers; in particular, the Site and the App are operated on behalf of Cité Gestion by dedicated external service providers. The Client hereby acknowledges and agrees that any and all **data sent through the App are processed by a third party provider, acting as processor to Cité Gestion, based upon an outsourcing agreement, in accordance with the General Terms and Conditions (Art. 13) and the Privacy Notice** (cite-gestion.com/en/useful-links).

RISKS ASSOCIATED WITH INTERNET USE / RESTRICTION OF CITÉ GESTION'S LIABILITY

The services above are provided via **Internet, a public network** over which Cité Gestion has no control. Connecting to the Internet involves the risk of inadvertently downloading viruses and cookies, or enabling third parties to surreptitiously access the Client's computer and the data contained therein. As a result of such access, third parties may also infer the existence of a banking relationship with Cité Gestion. The exchanged data via Internet may transit outside of Switzerland, even if the Client and Cité Gestion are based in Switzerland. **In such event, local laws and regulations may apply, and it may be possible for local authorities to access the IT systems of the Client and the data contained therein.** Some services may not be available (temporarily or definitively) depending on the residence or domicile of the Client. If it is the case, Cité Gestion shall not be liable. Cité Gestion shall not accept any liability for any loss or damage that may be suffered by the Client due to transmission errors or delays, network failures or overloads, mal-

functions (including bugs and viruses), Internet access being blocked by malicious or fraudulent acts of a third party, failings on the part of Internet service providers, software defects, or IT system defects.
