**INVESTMENT PROFIL NOT SUITABLE**

The Swiss law on financial services (FinSA) imposes on Cité Gestion SA (hereinafter, "**Cité Gestion**") certain restrictions in terms of investments on behalf of its clients, depending in particular on the personal situation of each of them, their knowledge and experience in investments, their capacity to bear losses, etc.

These restrictions are not mandatory, provided that the client who deviates from them is warned of the risks.

The undersigned person (hereinafter, "**the Client**") wishes to apply to his managed or advised portfolio **an investment strategy that deviates from the one corresponding to his risk profile**, established according to the principles of the LSFIn, and accepts that this strategy proves to be more risky than the one that would apply to him.

**The Client accepts the financial risks resulting from the chosen investment strategy.**

In this context, the Client confirms in particular that he/she is a well-informed investor and has sufficient knowledge and experience to understand the risks, in particular the financial risks, associated with the chosen strategy, or that he/she has obtained from his/her legal, tax and economic advisors the explanations necessary to assess and accept the aforementioned risks, for example by means of the brochure published by the Swiss Bankers Association "Risks inherent in trading in financial instruments".

Furthermore, the Client declares to have sufficient assets and income to understand and assume these risks.

Furthermore, the Client releases Cité Gestion from any responsibility linked to an inadequacy between his risk profile and the investment profile and from the consequences and damages, in particular financial, which could result from it.

For the rest, the General Terms and Conditions of Cité Gestion apply, in particular with regard to Swiss law as applicable law and the competence of the Geneva courts.
